EXPERIENCE

Enterprise Vision Technologies Remote April 2023 – Present

Professional Services Engineer

- **Finished a 2-year stalled Azure migration in 5 months** — coordinating 12+ stakeholders across networking, cloud, security, AD, ERP, and warehouse teams.
- **5× release cadence** — 2 releases/year to 10 in 10 months, building the monthly release process from scratch.
- **Stepped up as acting frontend tech lead for 5 months** — owned scope, design, and delivery for a platform serving 800+ teams.
- **Shipped an IAM credential system end-to-end** — Lambda architecture through UI, serving 800+ teams across thousands of users.
- **Built an AI chatbot that generates compliant Terraform IaC from plain English** — no infrastructure scripting required.
- **Leading backend re-architecture** — establishing clean code standards across a 4-engineer codebase inheriting 6+ contractors' work.
- **Reduced page load time 20×** through targeted frontend optimization.
- **Eliminated manual security reviews** — automated vulnerability scanning into CI/CD pipeline.

StaffWise LLC Remote July 2022 – July 2023

Full-Stack Engineer

- **Built and shipped TypeScript/React features** for a SaaS platform, including OAuth authentication flows integrated with Azure B2C.
- **Resolved critical production bugs** across React and Node.js, maintaining platform reliability.

NetApp Remote June 2022 – Sept 2022

Software Engineer Intern

- **Built a CLI tool automating Ansible boilerplate generation** — streamlining storage system deployment across engineering teams.
